

Attach commits to elements via
commit message

Table of Contents

1. How?	1
2. An example, please!.....	1

You can mention any epic, user story, task or issue via commit message to show a commit link in the history panel.

1. How?

Just add to your commit message something like:

```
TG-REF
```

- **REF**: US/Issue/Task reference of the element you want to modify

2. An example, please!

```
Fix Issue TG-123
```

In this example, **123** is an issue reference.
